

Pollina Rectangle Ottoman

Flexible Performance Outdoor Soft Seating, Poufs & ottomans ideal for Commercial Social Distancing Design Spaces.

The Pouf+Soft collection is launched with Sunbrella Cast Collection Solution Dyed Acrylic Fabrics. The simplicity of seating options complete the initial collection which is stocked in Fort Lauderdale, Florida. "We've been eyeing the soft seating category for quite some time from our Italian and Czech offices, but we wanted to be sure we could deliver and bring stateside the quality production, performance, simplicity and flexibility that the Hospitality, A&D and Specialty Design Channels require" says David Di Meco, President of David Di Meco Designs. Our goal was to create a soft collection that can incorporate casual, relaxed design, timeless tradition and quality into a modern marriage and understatement of 'life' and 'style'. There's really nothing like a bit of performance softness to give some tranquility and comfort to an exterior or interior. "Each piece can be used in a full outdoor space, such as a patio, terrace, or deck, but also could be used indoor and can stand up to commercial traffic, pets and children. The collections ease & flexibility has also gained several iconic hotels attention and installations from Miami Beach, Florida to Los Angeles, California and Ibiza, Spain to Milan, Italy." "We took a lot of time to develop the right durability and softness so we could also offer additional pieces and designs along the way in. The result is performance soft seating that are different from your typical 'what's out there' and just as important...flexibility for properties"

The water-resistant cover is removable for easy cleaning and has a waterproof bottom, making these outdoor bean bags suitable for use also on grass or sand. A durable, tear-resistant nylon liner contains the bead fill and provides another layer of protection against moisture.
